

Note about zyBooks grading

Your grade for zyBooks assignments will be calculated as follows:

1. You will get one grade for completion of *Participation Activities*, which will be equal to the percentage completed plus ten percentage points (up to 100%). In other words, completion of 90% of Participation Activities will earn you 100%.
2. You will get one grade for correctly completing the Challenge Activities and Labs. Your grade will be calculated as number of points earned / number of points possible.
3. You are encouraged to complete sections marked **optional**, though these will not count for a grade.
