

WHAT RESEARCH TOPIC
SHOULD YOU CHOOSE?

WHAT RESEARCH TOPIC SHOULD YOU CHOOSE

- A topic that you are personally interested in learning about
 - That you want to read *research articles* about
 - That you want to conduct original research in
- A topic that can advance you professionally
- A topic that will look great on your resume
- A topic you will be *proud* to present and discuss with others (including potential employers)

WHY DO RESEARCH?

- In-depth exploration and understanding of an area of interest, that is meaningful to you
- Learn research methodology and how to analyze data
- Gain and demonstrate independence
- Improve oral/written communication skills
- Connect research to course material
- Great for your resume!

- And many more...
